24/7 Install Support!

Vinyl Gazebos have an attractive two tiered roof which is available in multiple colors. Our vinyl gazebos have the look and feel of a traditional Victorian Gazebo, without all of the maintenance. You can also purchase the optional "hurricane package" to withstand winds of 140MPH, rest assured your are receiving the best engineered Vinyl Gazebo on the market.

You have the option of a wood-grain gray or wood-grain cedar roof. And you have the option to install on concrete or in the ground.

Optional Hurricane Package- This is the option to add hurricane wind resistance to your gazebo. Some locations require gazebos to withstand 140mph winds. By adding the hurricane package to our vinyl gazebos the gazebo will look aesthetically the same, but we beef it up by adding braces, fasteners, hurricane tie-downs and anchoring methods as required by our engineer. Please contact us if you need a "wet stamp" (by an engineer licensed in your area), this can be provided upon request for an additional charge.
